

TEC=LED

LED 'Spear' Indoor Lighting Systems

TECLED's 'Spear' LED lighting system fuses lighting with minimalistic modern design to offer an attractive solution to wall wash illumination.

All three systems have their own unique application while creating a focal point of light.

VERTEX

Installed between floor and ceiling, the Vertex system may be hung individually or in groups to provide a striking yet unobtrusive glow.

Adjustable support wiring allow you to vary the height of the lamp body to suit the space and express your own creativity.

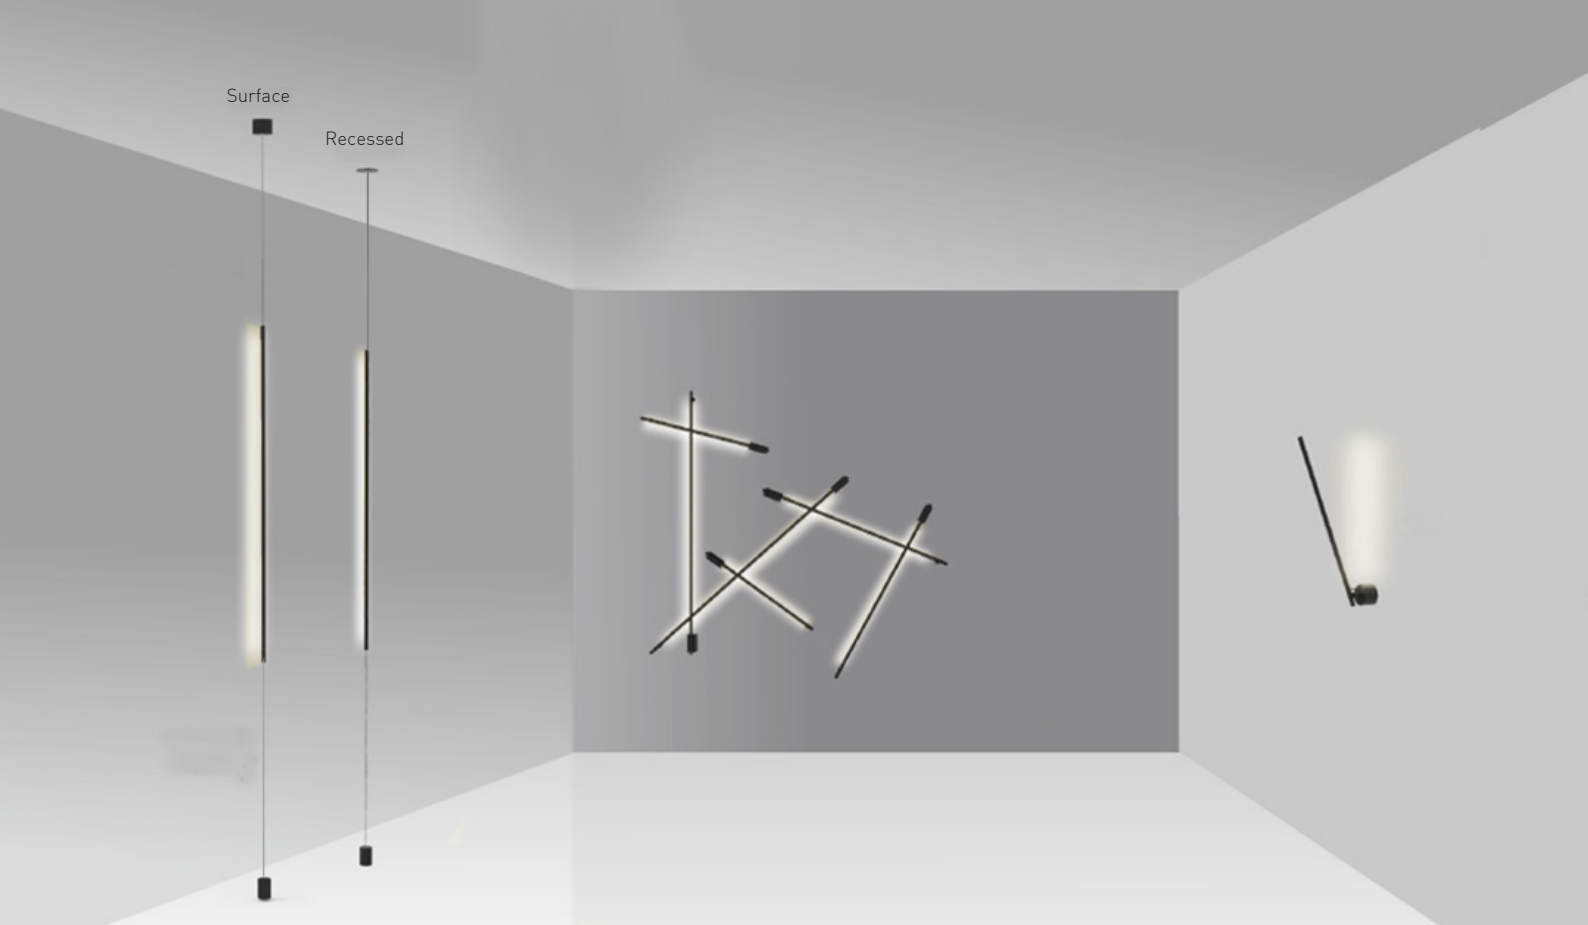

FREEFORM

Mounted to walls, ceilings or other flat surfaces, the FreeForm epitomises the essence of the range. Limited only by your own creativity, the FreeForm offers a bold and vibrant solution to wall art...and lighting.

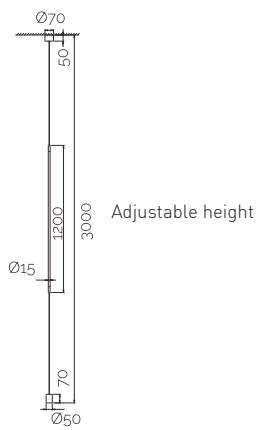

SWINGER

Functional, fascinating and futuristic. Wall mounted and adjustable, the Swinger can be your bedside light, your alcove light of simply an objet De art to capture and hold one's attention.

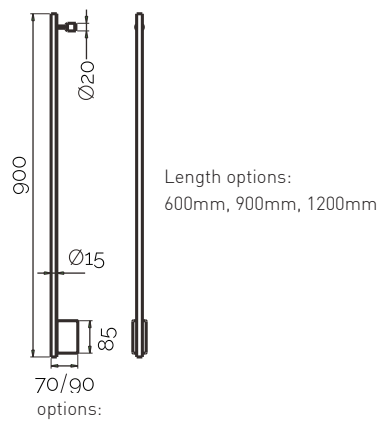

All are available in a range of housing colours and light temperatures.
